Plaintiff,)
Vs.) 4:05-CV-00329-TCK-SAJ
TYSON FOODS, INC., et al,)
Defendants.)

THE VIDEOTAPED DEPOSITION OF

VALERIE HARDWOOD, PhD, produced as a witness on behalf of the Defendants in the above styled and numbered cause, taken on the 18th day of July, 2008, in the City of Tulsa, County of Tulsa, State of Oklahoma, before me, Lisa A. Steinmeyer, a Certified Shorthand Reporter, duly certified under and by virtue of the laws of the State of Oklahoma.

|----|--|---------|
| 1 | Foods. | |
| 2 | VIDEOGRAPHER: Thank you. The witness may | |
| 3 | be sworn in. | |
| 4 | VALERIE HARWOOD | |
| 5 | having first been duly sworn to testify the truth, | |
| 6 | the whole truth and nothing but the truth, testified | |
| 7 | as follows: | |
| 8 | DIRECT EXAMINATION | |
| 9 | BY MR. TODD: | |
| 10 | Q Good morning, Professor Harwood. How are you? | 09:06AM |
| 11 | A Fine, thanks. | |
| 12 | Q Good. Now, this is the third time you've | |
| 13 | given testimony in this case. You've been deposed | |
| 14 | previously and you testified at the preliminary | |
| 15 | injunction hearing. That's right? | 09:06AM |
| 16 | A That's correct. | |
| 17 | Q Okay. Just quickly, the same ground rules as | |
| 18 | we used before. I will attempt to ask clear | |
| 19 | questions and if you don't understand my question, | |
| 20 | please let me know so that you're answering the | 09:07AM |
| 21 | question that I'm asking. Okay? | |
| 22 | A Okay. | |
| 23 | Q And remember to give verbal answers so they | |
| 24 | can be recorded. And I will attempt to use | |
| 25 | technical terms correctly, but you obviously are | 09:07AM |
| | | |

| | | Page 52 |
|----|--|---------|
| 1 | epidemiological studies to elevated microbial | |
| 2 | pollution levels, and I'm just wondering which | |
| 3 | microbes. | |
| 4 | A Well, so in this case what this statement was | |
| 5 | about was about the linkage between high indicator | 10:03AM |
| 6 | organism levels that indicate fecal pollution and | |
| 7 | their connection. So not linked to specific | |
| 8 | disease-causing organisms but to fecal pollution and | |
| 9 | their indicator, the Enterococci. | |
| 10 | Q Okay. Have you studied any incidents of AFRI | 10:04AM |
| 11 | in the IRW? | |
| 12 | A No. | |
| 13 | Q Are you familiar with any incidents of it in | |
| 14 | the IRW? | |
| 15 | A No. | 10:04AM |
| 16 | Q Are you familiar with any incidents resulting | |
| 17 | from exposure to water in the IRW? | |
| 18 | A No. | |
| 19 | MR. TODD: We'll go ahead and stop and | |
| 20 | change the tape. | 10:04AM |
| 21 | VIDEOGRAPHER: We're now off the Record. | |
| 22 | The time is 10:04 a.m. | |
| 23 | (Following a short recess at 10:04 | |
| 24 | a.m., proceedings continued on the Record at 10:19 | |
| 25 | a.m.) | 10:19AM |
| | | |

| | | | Page 54 |
|----|---------|--|---|
| 1 | · A | No. | SAME SAME SAME SAME SAME SAME SAME SAME |
| 2 | Q | On Page 4 of your report, you quote the World | |
| 3 | Health | Organization, this little block quote here, | |
| 4 | and you | quote, characterization of illnesses | |
| 5 | infecti | ons and illnesses due to recreational water | 10:20AM |
| 6 | contact | as being generally mild; do you see that? | 2000 |
| 7 | A | Yes. | |
| 8 | Q | What do you take generally mild to mean? | |
| 9 | A | What I just described. So it's not mild to | |
| 10 | the per | rson, but vomiting and diarrhea for two or | 10:20AM |
| 11 | three o | days, again, missing work and school, but then | |
| 12 | recove | ring on their own. | |
| 13 | Q | Okay, but seeking medical treatment or not | |
| 14 | seekin | g medical treatment? | |
| 15 | А | Frequently not seeking medical treatment. | 10:21AM |
| 16 | Q | Okay. You testified previously that | |
| 17 | plaint | iffs have not undertaken any epidemiological | |
| 18 | study | to quantify disease in the watershed. Is that | |
| 19 | still | the case? | |
| 20 | A | Can you say that again? Sorry. | 10:21AM |
| 21 | Q | You testified I think at your last deposition | |
| 22 | that - | - you were asked whether plaintiffs have taken | |
| 23 | any st | udy to document levels of disease in the | |
| 24 | waters | hed. | |
| 25 | A | Correct. | 10:21AM |
| | | | |

| | | Page 55 |
|----|--|---------|
| 1 | Q And that still has not been done? | |
| 2 | A Correct, it has not been done. | |
| 3 | Q So the plaintiffs haven't conducted any | |
| 4 | epidemiological study to assess levels of | |
| 5 | Campylobacteriosis or Salmonellosis? | 10:21AM |
| 6 | A Correct. | |
| 7 | Q Okay. Have you yourself ever designed an | |
| 8 | epidemiological study? | |
| 9 | A I have written a grant for an epidemiological | |
| 10 | study with the aid of epidemiologists, but myself am | 10:21AM |
| 11 | not an epidemiologist. So I'm familiar with the | |
| 12 | methods used, but I would seek help from an | |
| 13 | epidemiologist when design and study | |
| 14 | Q You need to translate your field of jargon for | |
| 15 | me. You said you wrote a grant. Does that mean you | 10:22AM |
| 16 | got the grant and did it or proposed a project or | |
| 17 | A This particular grant is a proposed project | |
| 18 | for an Environmental Protection Agency and the | |
| 19 | Florida Department of Environmental Protection, and | |
| 20 | the first phase of it is funded but the second | 10:22AM |
| 21 | epidemiology phase is not yet funded. | |
| 22 | Q Okay. Now, you note this is in Paragraph 9 | |
| 23 | on Page 4 still that infants, children, pregnant | |
| 24 | women, elderly and the immunocompromised are more | |
| 25 | susceptible to waterborne infections. | 10:22AM |
| 1 | | |

| | | | Page 62 |
|----|--------|--|---------|
| 1 | common | that Guillain-Barre. | |
| 2 | Q | Since your last deposition has anyone | |
| 3 | associ | ated with the State's case studied | |
| 4 | Guilla | in-Barre Syndrome in the IRW? | |
| 5 | A | Not to the best of my knowledge. | 10:30AM |
| 6 | Q | Are you familiar are you aware of any case | |
| 7 | of Gui | llain-Barre Syndrome in the IRW? | |
| 8 | A | No. | |
| 9 | Q | What is Reiter's Syndrome? | |
| 10 | A | It is you know, I can't say for sure. I'm | 10:30AM |
| 11 | sorry | • | |
| 12 | Q | So you've never studied it? | |
| 13 | A | No. | |
| 14 | Q | Okay. Have you ever studied Guillain-Barre | |
| 15 | Syndro | ome? | 10:30AM |
| 16 | A | Not beyond reading articles, not specifically | |
| 17 | in my | lab. | |
| 18 | Q | What you include in your report about the two | |
| 19 | syndro | omes, I take it, is just based on your | |
| 20 | liter | ature review? | 10:30AM |
| 21 | А | Correct. | |
| 22 | Q | I take it are you aware of any case of | |
| 23 | Reite | r's Syndrome in the IRW? | |
| 24 | A | No. | |
| 25 | Q | Are you aware of any case of Reiter's Syndrome | 10:30AM |
| | | | |
